

The Strategic Framework and Programmes for Economic Recovery in the Context of Living with Covid-19 in a New Normal 2021-2023 aims to restore and bolster Cambodia's economic growth back to its potential rate and strengthen resilience for sustainable and inclusive socio-economic development in the long run.

The Vision are (1) to strengthen the building of a solid path and inject strong vitality for socio-economic development, (2) to seize opportunities at home and abroad to strengthen and diversify the national economic base to gain a highly competitive edge, and (3) to improve the wellbeing of Cambodians in the "new normal" of development.

3Rs:

1 RECOVERY

Rebuilding a strong foundation for the economy to return to the path of growth, focusing on ensuring security, management of the most affected sectors and creating more jobs faster.
